

HIBRIX

Turf Care

Hibrix Turf Care is a simple, fast acting fertiliser designed to feed the macro and micro nutrient requirement of all grasses.

- ✓ Minimise leaching and run off.
- ✓ Suitable for use around treed areas.
- ✓ Increase water utilisation efficiency.
- ✓ Restores soil
- ✓ Easy to apply.
- ✓ Cost effective

**Hibrix Turf Care
is specifically
design to meet the
needs of
environmentally
conscious professionals.**

Application rates

Standard Application	150ml per 10 square metres Dilute with water to a minimum ratio of 1:50.	Apply every 6 - 8 weeks. Suitable for fertigation and spray gear.	Do not apply if heavy rain is expected in the next 6 hours. Do not apply to freshly cut grass. Avoid contact with skin and eyes. If swallowed seek medical attention.
Remedial Application for Damaged turf	200ml per 10 square metres. Dilute with water to a minimum ratio of 1:50.	Apply every 4 weeks. Suitable for fertigation and spray gear.	

The above photos demonstrate the healing ability of the Hibrix Turf Care Product. The damaged lawn (pictured left) was treated with a remedial dose of 200ml for every ten square metres. The second picture (right) was taken 4 weeks after.
